OUR STORY

At Crackling Wick Candles, we believe a candle should do more than simply scent a room, it should create warmth, comfort, and meaningful memories. Based in Middleburg, Pennsylvania, our family-owned company was founded in 2013 by Grace alongside her five daughter. What began as a small, self-taught passion has grown into a dedicated candle business built on creativity, hard work, and heart.

Over the years, we have continued to grow while staying true to our mission; crafting hight-quality home fragrance products that bring coziness and joy into every home. From our candle shop to thousands of hand-poured candles produced each year, every product reflects our commitment to quality and care.

Despite the changes and challenges that come with running a small business, our passion for creating welcoming, comforting products has remained the same. we love knowing our candles can help families relax, celebrate special moments, and reconnect with cherished memories through scent.

Our goal is simple; to brighten the lives of others by offering premium candles at an affordable price.

We are grateful to continue doing what we love, building lasting relationships with our customers, and living out a dream that started with family and faith.

OUR PRODUCTS

Our candles are made with soy wax derived from soybeans, offering a more eco-friendly and sustainable alternative to traditional paraffin wax candles. Soy wax also provides a cleaner burn and longer-lasting fragrance experience.

Each product is carefully wicked, hand-poured, labeled, and packaged with attention to detail to ensure exceptional quality from start to finish.

CANDLE CARE

For best results when lighting for the first time, allow the wax to melt to the sides of the jar, ideally for 2-4 hours to allow a full melt pool to form. This should ensure further consistent burns, to avoid tunnelling + candles waste.

The maximum recommended burn time is 3-4 hours per burn.
Always trim wick by pinching off the burnt end before each burn.

It is recommended to cease burning when 5mm of wax is left in the vessel. The remaining wax could be used in an oil burner to avoid waste.

Safety instructions can be found at the base of each candles.

Our Workspace

MEET THE GENERAL MANAGER

Shortly after our candle company started Kayla found herself employed and enjoying odd task a candle company requires, wicking jars, labelling and much more .

After living away for a few years and having an array of various careers under her belt she found herself back home with the knowledge and experience to operate Crackling Wick Candles.

She has learned and perfected her candle making skills and enjoys being of service to each of you.

And now she is thrilled to stock our candles in various stores across the USA.

MEET THE SOICAL MEDIA MANAGER

Corina has been employed at Crackling Wick candles since the beginning in 2013, and has filled many positions including wholesale manager.

Corina has always enjoyed creating and designing which she most definitely inherited from her mama, Ive always enjoyed making, creating, and art of any kind. content creating, and website design has given me that creative outlet.

Corina is currently secratry at a Daycare in PA, but still continues to keep one foot inside the business by managing all our social media platforms + website design.

MEET THE OWNER

Amos is the father to the Speicher family, owner of Crackling Wick Candles as well as a construction business, Northwood Home Builders.

After threats were voiced about putting up chicken barns to keep his nine kids occupied and out of trouble, a Candle company sounded like the better option all the way around!

Amos is a loyal kind + consistent person. keeping tabs on the financial numbers is his contribution to our family owned company.

IN LOVING MEMORY

Behind every candle we pour, there is a story. Today, we want to share one of the most important ones.

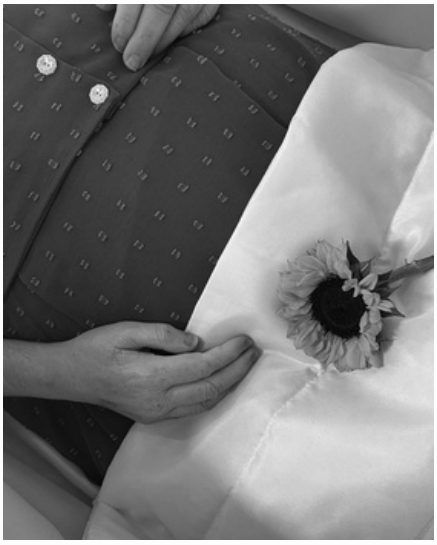

On Febuary, 6, 2026 we said goodbye to our sweet mom. she wasnt just our mother- she was a huge part of the heart behind this business. This was her dream, and she was right there with us. encouraging, brainstorming, testing scents. cheering us on like she always did.

she inspired creativity in each of her daughters and helped spark the love for candle making that became this little business.

Although our hearts are broken, we carry her legacy forward in every jar we fill. Every flame that flickers feels like a reminder of her warmth, her strength, and the light she brought into our lives.

Thank you for supporting our small business - you are also helping us carry on something that meant so much to Grace.

We miss you, mom. This will always be a part of your story too.

Art of Color and Shade

I'm Corina, the artist behind the artwork

I've loved creating beauty with ink, pencil and watercolor for as long as I can remember. Through years of taking art classes, I've continued to develop my skills and deepen my love for creating. I began creating original, hand-drawn pieces as a way to share that love with others and to create artwork that encourages and inspires.

Each piece is hand drawn or painted by me.

I hope each piece feels less like something mass-produced and more like a little glimmer tucked away just for you!

Thank you for supporting my hobby and for giving my artwork a place in this world.

great customer service.

speedy fullfillment time

Why Choose Crackling Wick candles?
All of our candles are made from 100% natural soy wax. By buying our soy wax products, not only are you helping to support soybean farmers, but your ensuring that the newest addition to your home decor burns clean and won't detract from your air quality. soy wax is better for both the environment and your health.

All our candles are made with a unique, crackling, wooden, wick. there is something alluring, captivating and inviting about burning wood. Its draw is instant and it has the ability to transcend people into a happy place. For some, the attraction lies in the radiant glow of the rhythmic flame. Whereas, others enjoy the sound of SNAP, CRACKLE, POP. Then there are those, like me, who like it all.

Wooden Wicks are natural and Eco-friendly. they product a crackling sound like that of a wood burning fireplace. It is this unique feature that makes our wooden wick candles so appealing.
